Mission & Vision

Making Coding Fun!

Funding Needed

Type: Seed Funding

Amount: USD750K

About the Company

Robogram is an EdTech company to provide Coding education software for 10 years old and above.

While most educational content focuses on the top 20% of exceptional students, Robogram is focused on helping the 80% of ordinary students. We believe that ordinary students can discover their hidden talents through fun and engaging learning experience. The team has more than 40 years of education experience in coding.

Differentiating Factor

7 out of 10 students give up difficult Text coding.

Our block coding software lets students enjoy and have fun while learning coding algorithm in Metaverse environment and A.I. concept.

- Create own ideas in Metaverse
- Experience A.I. concept
